

TECHNICAL DATA SHEET

SKIN2P BODY

Insect Repellent Spray for the Prevention of Bites by Mosquitos

DESCRIPTION

Skin2P Body perfumed and non-perfumed is an insect repellent for protection against mosquito bites, it is especially effective in tropical areas against mosquito bites (Aedes, Culex, Anopheles), which can carry vector-borne diseases (Malaria, Dengue, Zika, Chikungunya, West Nile). Skin2P contains no DEET which makes it safe for women who are pregnant and for children 6 months and above to use.

FEATURES & BENEFITS

- Non-flammable water-based formulation
- Provides protection for up to 8 hours
- 8hr long protection
- Recyclable packaging
- Non greasy and non- sticky moisturising solution
- Does not stain clothing

APPLICATION

Ideal in tropic areas, on Aedes, anopheles and Culex strains. May be applied to the entire body except the mucous membranes. Suitable for children who are 6 months and above and women who are pregnant.

DIRECTIONS FOR USE

SPRAY

1. Spray directly onto the body parts to be protected. For the face, spray the product onto your hand first, then rub in. Ensure your skin is dry.
2. Spread the repellent evenly.
3. Repeat the application 2 - 3 times a day if sweating, and routinely after each swim. In humid climates, renew the application more frequently.
4. Apply the repellent at least 20 minutes after sunscreen.

APPROVALS

- Efficacy proven in accordance with the protocol described by the WHO for skin repellent products (WHO/HTM/NTD/WHOPES/2009.4), World health organisation, 2009.
- Registered under French ministry of ecology, sustainable development and energy - n°36390/ biocide regulation n°528/2012 – PT19
- Compliant with the recommendations for “vector control personal protection” good practice from the SFP* -29/09/2010
- Compliant with the BEH (French weekly epidemiological bulletin) recommendations and listed in the BEH n° 20-21 published 09 June 2015
