A NEW RANGE OF AIR FRESHENERS

FRESH+CLEAN is the new range of air fresheners developed by Callington with fragrances inspired from all over the world and is suitable for all transport sectors.

Non-flammable and aircraft approved, FRESH+CLEAN is available in a range of nine fragrances. From heavy base notes such as musk, through to soft flowery and fruity top notes, our selection of fragrances identify the true essence of the regions which inspired them, giving them their unique identity. The range is further complemented by our long-lasting deodorant discs, designed for confined spaces to provide consistent fragrance release over time.

To complete the range we also provide non-flammable aerosols using alternative propellants that are compliant in all regions.
